CREATION ADVENTURE

CREATION ADVENTURE

Now you and your family can experience the excitement of a once-in-a-lifetime adventure as you journey with us and our team of professional paleontologists from Creation Expeditions back to the Flood of Noah's Day, to the Ice Age, or in search of the hard-to-find habitats of the elusive manatee. Search and excavate 120-foot behemoths like the *Brachiosaur* or amazing Ice Age creatures like giant twelve-foot beavers, fifteen-foot sloths, mammoths, and saber-tooth cats. Past teams have worked on a rare *Allosaur*, *Stegasour*, mammoths, and have uncovered thousands of Ice Age shark teeth. To learn more about our family-friendly Dragon's Den Dino Dig, Ice Age Excursion, or Manatee Adventures, visit our Web site. Make sure to watch our film shorts.

## THE UNDERWATER, OVER LAND, SPELUNKERS HEADLAMP

One of the great joys of being a boy is the excitement of exploring new and mysterious places. Every boy explorer imagines that he is the first to discover a cave or climb a mountain. To shed light on his adventures, we present the Solo Headlamp by Princeton Tec. Its reputation for quality, dependability, and value has made it the #1 selling headlamp in its class. The Solo Headlamp is used for scuba diving, camping, bicycling, competition orienteering, fishing, fire and rescue

missions, and spelunking. This remarkable piece of technology can be used in your pool or in the ocean because it remains waterproof even at 2,000 ft. The Solo comes with a handsome fleece storage bag, two halogen bulbs, two AA batteries, and has two focused beam options (narrow and wide). Burn time: two hours with a standard bulb, eight hours with halogen. Comes with a lifetime warranty. **6+** 12532 | \$32

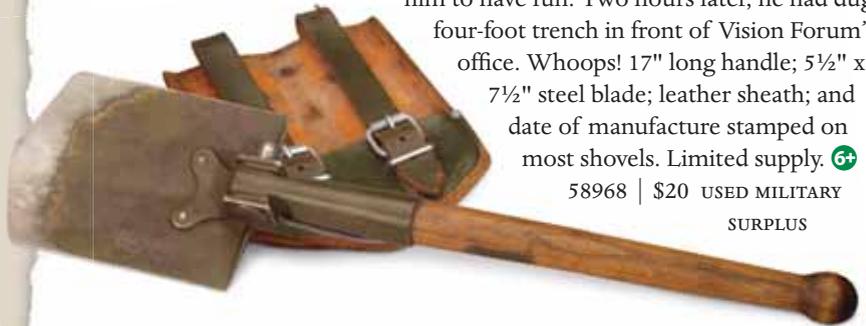

## VINTAGE WORLD WAR II SHOVEL

When you purchase this authentic military shovel for your son, you will not only be getting a handy tool, you will be giving him an actual piece of history. Like so many other necessary military camping tools, these shovels are incredibly durable, easy to handle, and can attach to your belt for easy transport. From digging fire-pits to tent floors, a shovel is an indispensable piece of camping gear. I gave a shovel like this to my six-year-old and told

him to have fun. Two hours later, he had dug a four-foot trench in front of Vision Forum's office. Whoops! 17" long handle; 5½" x 7½" steel blade; leather sheath; and date of manufacture stamped on most shovels. Limited supply. **6+**

58968 | \$20 USED MILITARY SURPLUS

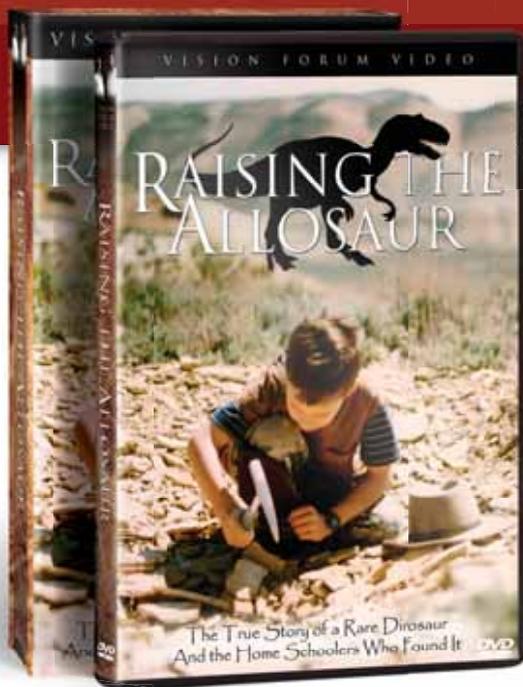

## MILITARY UTILITY BELT

Every paleontologist needs a sturdy belt on which to attach his field necessities. This genuine military-issue belt is heavy duty and will serve well the fossil hunting boys in the family. One size fits all, even small waists. **6+**

10145 | \$10 USED MILITARY SURPLUS

# RAISING THE ALLOSAUR

The True Story of a Rare Dinosaur  
And the Home Schoolers Who Found It

*"After watching the video, our five children donned hats, backpacks, put on suitable clothes, grabbed their tinker toys—yes, tinker toys, it was nighttime and we have around three feet of snow—and began chiseling our family room couch looking for rocks with holes in them to find a dinosaur bone."*

—A MASSACHUSETTS FAMILY

**Q:** What happens when a group of home school boys and girls travel to the badlands of Colorado with their parents in search of adventure and the hope of finding ancient treasures buried in rock?

**A:** They become part of the biggest dinosaur discovery of the year. There, buried in the rock, are three amazing creatures: a many-plated *Stegosaurus*, a 120-foot *Brachiosaurus*, and most importantly, what appears to be the most complete *Allosaur* ever found in the history of paleontology. As they participate in the excavation of these creatures, they discover even more—remarkable proof that the creature is not millions, but thousands of years old!

Our feature documentary film, *Raising the Allosaur*, is the inspirational, true story of how God is raising up a new generation of Christian young men and women with a vision for "discipleship and dominion" in the field of paleontology and Creation science. In *Raising the Allosaur*, you will learn about dinosaur hunting from the wonderful DeRosa brothers, two home-educated Christian young men with more than a decade of experience in the field of paleontology. Watch as a nine-year-old girl discovers giant

"behemoth claws," and listen to the testimony of young boys who hope to use this once-in-a-lifetime experience to become defenders of the faith and successfully challenge the myth of evolutionism. You will learn about the technical aspects of finding the bones, excavating them, preserving, and even restoring a dinosaur. 70 min. **F**

DVD ..... **DVD** 68432 | \$18 VHS ..... **VHS** 68434 | \$15

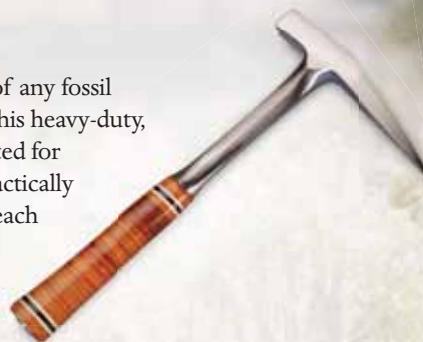

## ROCK HAMMER

One of the most important parts of any fossil adventure is your rock hammer. This heavy-duty, leather-handled tool was constructed for maximum performance and is practically indestructible. It was carried by each member of the team when we helped uncover the *Allosaur*.

Eye protection recommended.
