Dear Mr. Taylor:

Doug is rushing around from state to state and asked me to respond to your letter. First, he wanted me to thank you for your kindness in taking the time to write with the below corrections and comments. He also wanted to acknowledge our gratitude for the expertise and years of experience that the Lord has given to you in the field of paleontology.

Doug wanted me to respectfully disagree with points 1 through 4 in your note, given the fact that it is Doug's belief that the Allosaurus is most likely the same "kind" as the T-Rex, and thus under biblical taxonomy it is correct to say that they are relatives because they represent variation within a kind.

Concerning the remaining points, Doug wanted me to assure you that it is never his desire to **rob another brother of the glory due to him, but** that it has always been our understanding based on his relationship with Pete and Creation Expeditions, that this dig from beginning to end has been a Creation Expeditions dig for which you were an important part of the support team. Consequently, the information was not meant to exclude Mt. Blanco, but to emphasize Creation Expedition team which oversaw the project and was yoked with Vision Forum during the week that the Allosaurus skull was discovered. The articles were cleared with Creation Expedition and represent our best attempt to promote an accurate overview of the situation and to draw attention to the importance of this find which culminated with the dig that occurred during the week that Vision Forum and Creation Expeditions sponsored our joint dig. He mentioned that because of the formal working relationship between Creation Expeditions and Vision Forum, that any concerns should be discussed with Pete, from whom we take our cue.

Doug wanted me to tell you that he is praying that the Lord will greatly bless Mt. Blanco and reward you for the years of service in the cause of Christian paleontology.

Yours In Christ,
Bob Renaud

Subject: FW: ALLOSAUR INFO

This is absurd! Pete needs to have another talk with him.
